One daughter

How could 50 years go by so fast? I guess the real answer is that we all keep so busy.

I am still teaching and have been since 1964. For the last 20 years I have taught Developmental Mathematics at South Central College in North Mankato. It is a 2-year college and many of our students will then transfer to Minnesota State-Mankato. Before that I taught many areas of Science in the 7-12 setting. After all these years many of my friends have retired so I am thinking retirement at the end of 2010.

Jim and I still live in Faribault. After we both retire we will keep the house but spend winter months in some place warmer. We have spent the last few years in the Florida Keys during the fall break, which is a beautiful place to be during the Christmas Holiday. Jim works in South Minnesota four days a week plus keeps an office in Faribault. He works for the Top Shelf Corporation. They Deal in Men's Custom Clothing.
